
ISMB 2026: Invitation to apply for a conference Fellowship

From ISMB 2026 <ismb2026@easychair.org>
Date Wed 06/05/2026 18:45
To Trnovec, Lena <lena.trnovec@fri.uni-lj.si>

Dear Lena,
Thank you for your submission to ISMB 2026 entitled:
1058: Protein-informed single-cell embeddings preserve biological signal across large evolutionary distances
Authors: Lena Trnovec, Mariko Katoh-Kurasawa, Rachel N Arey, Gad Shaulsky, Blaž Zupan

Congratulations on your accepted submission to ISMB 2026!

We are pleased to inform you that you are eligible to apply for a conference fellowship to support your participation at the conference.

Please note that you must be a current ISCB member, the presenting author of the above-named work, and either a student, postdoctoral scholar, or early-career researcher from a lower-income country. All details regarding eligibility and the fellowship process can be found on the ISMB 2026 website: <https://www.iscb.org/ismb2026/general-info/conference-fellowships>

If you wish to apply, please complete the fellowship application form by May 22, 2026, at the following link: <https://www.iscb.org/application?formId=35>
Please ensure you submit your application before the deadline, as late applications cannot be considered.

If you will not be presenting this work at the conference, you should forward this email to the presenting author whose name was included on the original submission, provided they meet the above criteria.

It is also very important to note that travel fellowship awards will cover only about 50% of the total travel and registration costs. Therefore, each successful applicant is responsible for finding additional funding to cover the remaining 50% of the costs to attend the conference. THIS EMAIL DOES NOT GUARANTEE FUNDING, as traditionally, we receive many more requests than we can accommodate.

This is the only travel fellowship invitation that will be sent out for the presentation entitled Protein-informed single-cell embeddings preserve biological signal across large evolutionary distances.

We hope to see you in Washington, D.C.!

Best regards,
Bel Hanson
On behalf of
ISMB 2026 Organizing Committee
